THE TRANQUIL CADENCE OF WAVES LAPPING THE SHORE...

Philip Gray enjoys an unrivalled reputation as an artist adventurer and has travelled the world in search of ever more exotic landscapes and dangerous challenges. But wherever he goes on the planet, it is the South West coast of Ireland that he always returns to, and his peaceful depictions of the shores and harbours of home provide us with the opportunity to escape the chaos of day-to-day life and appreciate the wonder of the natural world as interpreted by a master of the genre.

Philip's powerful and eloquent images have captivated a generation of art lovers and won him an impressive range of awards, media coverage and celebrity collectors. As his reputation has grown, his work has become increasingly sought after, and his status as one of the UK's most collectable artists has long been established. This new collection celebrates his passion for his home on the beautiful coast of Ireland.

SOLITAIRE
FABIAN PEREZ

**A SPELLBINDING NEW SOLO STUDY FROM ONE OF THE WORLD'S
FOREMOST FIGURATIVE ARTISTS.**

Solitaire is a restful piece; an intimate solo study which draws the viewer into an atmospheric and beautifully rendered moment of calm. It features a sultry beauty relaxing over a game of cards and a glass of wine, a modern woman who is content to spend an evening in her own company – and ours.

The warmth and humanity of Fabian's female figures is as central to his images as their beauty and seductiveness. His unusual past gave him an understanding of women and a closeness to the reality of his subjects that sets him apart from other artists who might paint such characters from a greater distance.

ROUNABOUT - MONA LISA

MR BRAINWASH

**IT'S TIME TO FORGET WHAT YOU KNOW AND
EMBRACE THE UNEXPECTED.**

Mr Brainwash has appropriated many familiar cultural symbols over the years, taking people, places, images, logos and more and setting them in an irreverent new context. The message is suddenly completely new as he challenges our assumptions about the nature of art in with his entertaining and colourful homages to the classic, the contemporary and the chaotic.

This exclusive new edition shrugs off the traditional straight lines and right angles with a high impact circular image which takes Leonardo's Mona Lisa into a brave new world! While the subject highlights that art is an ever-shifting concept, the circle, symbol of continuity, reminds us that what goes around comes around.
